OPEN THE
REVOLUTION

A QUICK OVERVIEW

The company stands against all because its achievements say it all. For the last many years, the journey of TITA Sanitarywares has become a remarkable and unique, yet amazing one. TITA Sanitarywares is touching the sky in no time, from providing their customers the best to giving effortless results and growth.

If we talk about the products and services by TITA, there is no competition to date. The purity of the class the quality is different from all. It is the beauty that is incomparable. We must have seen numerous companies in the entire world, But a company like TITA is rare. They purely work on giving the best and affordable luxury to their end-users. They worked very precisely to provide comfort and abundance to every class of people, which is one of the beautiful things about TITA.

The company that always thought about its users and their needs will always be appreciated in every manner.

It will be justified if we say that TITA sanitarywares has created wonders in a span of very little time. From making the best to giving the best and beautiful, TITA has grown tremendously. The efforts will ultimately provide the shining stars to their higher dreams, and it will be at their peak forever.

AN ISO 9001 : 2008 CERTIFIED COMPANY

OUR TECHNOLOGY

“Crafted with the most advance tools Human hands” we believe that machine made products can not give enough experience which hand made gives. That's why we, as TITA and our desingner have imagined each piece, from beginning to end. The thoughtfulness extends to the buyer/end user who experience all effort and skill.

Handmade products are high in quality not just because of their price but also because makers understand the value of each piece, and higly skilled creators of handmade items care significantly about the quality and materials they used.

TITA CLEAN TECHNOLOGY

The TITA research and development team has a new technologically advanced compound called ‘TITA CLEAN TECHNOLOGY’. These compounds are used inside and outside with an extra layer of coating, which helps to reduce the accumulation of germs and bacteria with a self-reduction of 99%. In addition, the TITA CLEAN and extra layer of coating help increase strength and reduce porous surfaces inherent in ceramics. The first layer of the compound is sprayed white and fills any gaps present before the heat treatment process. Next, we apply a third layer that makes the ceramic's surface smoother and flawless by any rough imperfections.

Normal Surface

Tita Clean Surface

COATING AND CLAY

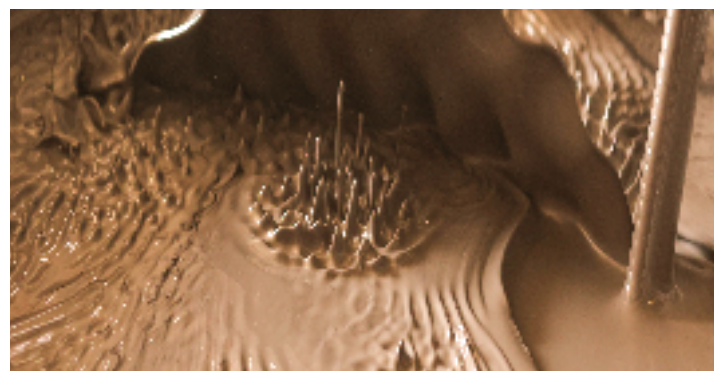

Tita Coating

An unconventional & amazed technology which will accurately & precisely pay attention to the every aspect of today's times. We strongly value nature and provide the best bacteria-free material to our clients.

Tita Clay

TITA's considerable encouragement towards clay technology enhances the properties of PURIFICATION, AGING, BACTERIAL ACTION ETC. The R&D team and the engineers have done their best and made the bacteria-free clay which has the world class quality ever. TITA has believed and used clay efficiently and mainly for the moulding & drying properties.
